

Blue heavy-duty PVC apron, keeping workers safe against chemicals, punctures, abrasion, and more

- **Specialized protection:** The AlphaTec® 56-100 green PVC apron is designed with flexible 18 mil die-cut PVC fabric, which combines chemical splash protection with resistance to oils, grease, punctures, and abrasion
- **Optimized fit:** This AlphaTec® safety apron also features sealed grommets with 48-inch ties, enabling wearers to find the best, most comfortable fit for them, without risking tear-out
- **Improved durability:** This protective apron's vinyl construction also makes it highly durable, offering robust personal protection over sustained periods

Industries

- Food Processing
- Life Sciences

Applications

- Packing of fillets and ground meat
- Canning
