

Previously known as: Neptune® Kevlar®

Cut

Medium Duty

Double-layered protective sleeves, for assured protection from cuts and minor heat risks

- **Advanced protection:** HyFlex® 70-138 arm protection sleeves are made from 100% Kevlar® fibers, offering excellent cut resistance, as well as flexibility and comfort
- **Specialized defenses:** Double-layered, they also protect wearers' forearms against minor heat, cuts and burns
- **Enhanced features:** These protective sleeves' thumbslot and Velcro® strap ensure they are firmly held in place, improving wearer comfort further

Industries

- Automotive
- Metal fabrication
- Machinery and Equipment

Applications

- Press shop operations
- Assembly & inspection of components
- Applying sealers, touching up
- Equipment repair & maintenance
- Cutting glasses, sheets, panels
- Seizing structural and body parts
- Adjusting systems and screwing

HyFlex®
