

VERTICAL VACUUM SEALER DZQ SERIES

Model	DZQ-900 OL	DZQ-1000 OL	DZQ-1200 OL
Effective Seal Length	900*8mm	1000*8mm	1200*8mm
Vacuum Pump Rate	20M ² /H 40M ² /H(OPTIONAL)		
Sealer Power	1.3 KW	1.4KW	1.6KW
Packing speed	1 – 3 bags/min (subject to type of packing requirement)		
Weight	120 kg	125 kg	130 kg
Outer Dimension	1250*960*1800	1250*960*1800	1330*960*1800
Height (Sealer to Floor)	1 ~ 1430mm		

VERTICAL VACUUM SEALER DZQ SERIES

FEATURES

- Heat sealer uses pneumatic motion, sufficient seal pressure, more than 20N/cm²
- M-shaped 10mm wide sealing strip ensure high quality sealing
- Filtered air intake.
- Multiple work modes

Smart User Control Interface

Touchscreen user interface, controller is built-in with automatic emergency display. Easy to operate and monitor. Able to customize setting based on customer requirement.

Selectable modes:

- Sealing only , Vacuum + Sealing , Gas Filling + Sealing
 - Gas Filling + Vacuum + Sealing
 - Vacuum + Gas Filling + Sealing
 - Vacuum + Gas Filling + Vacuum + Sealing
- Setting can be programmed and saved into system.

Rotating Lift System

Made with SS 304 material with thickness of 4.5mm.

Long Nozzle, Up-Down Drive System

The head consists of long nozzle design, adjustable length up to 200mm. Efficient pumping speed.

VERTICAL VACUUM SEALER DZQ SERIES

Bag Stretching Mechanism

Ensure bag opening is straighten and tidy, reduce creases when vacuum sealing. The bag will always be in the correct position, ensuring better sealing.
